## Marburg Heart Score

### MARBURG HEART SCORE

Female > 64 years, male > 54 years	1 point
Known CAD, cerebrovascular disease, or peripheral vascular disease	1 point
Pain worse with exercise	1 point
Pain not reproducible with palpation	1 point
Patient assumes pain is cardiac	1 point

Approximately 97% of patients with a MHS score of 2 or less will not have CAD

Approximately 23% of patients with a MHS score of 3 or more will have CAD
